PREFACE

The Council of the Chi Phi Fraternity, having been authorized by the Congress for the year 1906 to appoint a committee to publish a Register of the Fraternity, took upon itself, as a Committee of the Whole, the work of collecting the data and publishing the book.

In carrying out the design of the Congress with regard to the Register, it has been the purpose of the Council to present as complete and accurate a list as possible of our members, together with a statement of their colleges, chapters and classes; their collegiate degrees, vocations and residences; all grouped conveniently in order to furnish a ready-reference directory of the Fraternity.

No complete list of our members has appeared since the Register edited by Brother Ethan Allen Weaver, and published in 1890. The present work is not comparable in scope to the monumental work of Brother Weaver; it is little more than a compilation of names, the various lists being printed substantially as prepared by those having the preparation of the lists of membership of the different chapters under their particular charge.

Experience with the publication of the annual address lists of chapters has shown that a very great number of changes must be made every year. The value of such a directory as the present one is designed to be is, therefore, in direct ratio to the promptness with which the material employed in its preparation makes its appearance in published form; and this consideration has impelled the sacrifice of many features which would have added greatly to the attractive appearance of the book, as well as to its usefulness in other ways than those for which it was specially intended.

Names of initiates of later date than July, 1907, are not included in this Register. With this explanation it may be said that any changes brought to the attention of the Council which would serve to make the work more accurate have been made down to the last possible moment.

The gratitude of the Fraternity is due to those who by their painstaking efforts have made possible the production of the volume, and whose names are given in the following lists.

It is with a keen appreciation of the invaluable assistance rendered by Brother Boudinot Keith, Lehigh, '80, Psi, that I here note the debt this book owes to him.

Brother Wyndham Stokes, Lehigh, '88, Psi, undertook the difficult task of collating and verifying the membership data covering our 27 Inactive Chapters, and he was ably assisted in this by Brother The Rev. Martin L. Zweizig, Muhlenberg, '77, who worked out the membership records of his old Beta Chapter; by Brother Dr. Frank K. Boland, University of Georgia, '97, Eta, who verified the membership records of Beta at Centenary College, Epsilon at Nashville, Zeta at Cumberland,

Theta at Edinburgh, Omicron at St. John's, Pi at Vanderbilt and Tau at South Carolina; by Brother Thomas W. Connally, Emory, '02, Gamma, who did a like service for Iota at Mercer, and Lambda at Oglethorpe; by Brother John Burt, Jr., Hobart, '59, for his old Chapter, Upsilon; by Brother Frederick H. Meserve, Massachusetts Institute of Technology, '92, Beta, for old Tau at Massachusetts Institute of Technology.

The membership rolls of all the other Inactive Chapters, namely, Alpha, University of North Carolina, Aleph at Johns Hopkins, Beta at Harvard, Gamma at Davidson, Theta at Pennsylvania College, Kappa at Brown, Mu at Trinity, Nu at Washington and Lee, Nu at University of Pennsylvania, Pi at Kentucky Military Institute, Tau at University of Michigan, Chi at Ohio Wesleyan, Psi at Kenyon, and Omega at Dickinson, were prepared by Brother Stokes alone.

With regard to the membership of the Active Chapters, the officers of these chapters were apprised in detail as to the data which would be required in the preparation of this Register, and were instructed so to prepare their annuals for the year 1907 as to furnish these particulars. These annuals were then used as a basis, and each chapter membership thus shown was card-indexed, and as soon as this had been done with reference to any chapter, the cards were referred back to an alumnus of the chapter, or to some other member particularly qualified for the work, to be verified or corrected.

The names of those who have performed this service for the different chapters are as follows:

The PURPOSE of this book is, to acquaint our members with the whereabouts and occupations of their brothers; and its VALUE to us all will rest in its wide distribution and constant use. If it recalls old friends, strengthens old college ties, and opens the way for fraternal intercourse and reunions of brothers heretofore unacquainted with their common heritage in Chi Phi, it will accomplish its purpose.

HISTORICAL SKETCH.

Our Fraternity is the result of the union of three distinct organizations bearing the same name—Chi Phi. The oldest of these originated at the College of New Jersey, at Princeton, and is known as the "Princeton Order"; the next in age was founded at the University of North Carolina, and is known as the "Southern Order"; and the third had its origin at Hobart College, and is known as the "Hobart Order."

A secret fraternity of religious character existed at the College of New Jersey, in the year 1824, and the initials of the words chosen as its motto were the Greek letters Chi and Phi. The exact date of the foundation of this society has never been determined, but a copy of its constitution, ritual and other papers, and records of the society bearing the date 1824, were found during the college year 1853-1854 by John Maclean, Jr., a student of the Class of '58, among the papers of his uncle, then president of the college; and a fraternity based upon the records thus brought to light was instituted and named Chi Phi. Charles Smith DeGraw, '57, and Gustavus William Mayer, '57, joined with Maclean in this work.

The chapter thus formed existed *sub rosa*, on account of the hostility of the faculty to secret societies, and in 1859 it was determined to abandon the organization at Princeton. Its records were thereupon destroyed, and the following year its connection with the college ended with the graduation of its last members. A chapter of the Princeton Order, had, however, been established at Franklin and Marshall College, at Lancaster, Pa., in the year 1854; and in 1867 this latter chapter established at Pennsylvania College, Gettysburg, Pa., the third and last branch of the Princeton Order. As the date of the establishment of the chapter at Franklin and Marshall is placed a year earlier than the date given by Brother Weaver (1855) in the "Historical Introduction" to his Register of 1890, it is proper to say that recent investigations by Brother Weaver, Brother The Rev. Dr. Joseph Henry Dubbs, and other members of the Fraternity, have made it necessary, in the opinion of everyone who has examined the question critically, to correct the date previously recorded, and also to advance by some months the date when, it was formerly supposed, the discovery was made of the original Chi Phi records at Princeton by John Maclean, Jr. Accordingly, the year 1854 must be considered established as the date of the foundation of the Zeta Chapter, and the college year 1853-4 as the date of the formation of the re-established Chi Phi at Princeton.

Although not following the chronological order of foundation, as a matter of convenience the Hobart Order will next be considered. For convenience, however, the year 1854 and not the earlier possible date is retained as the date of this re-establishment.

In 1860, a college fraternity was founded at Hobart College, Geneva, New York, by twelve undergraduates. This organization had its inception a year earlier, in the intimate friendship and association of Amos Brunson and Alexander J. Beach, both of the Class of '62. The twelve founders have been sometimes affectionately termed the "Twelve Apostles." The Fraternity established by them was called "Chi Phi," and the parent chapter the Upsilon Chapter. Four chapters of the Hobart Order were thereafter established; whereupon, in 1867, and after negotiations extending over some two years, the Hobart and Princeton Orders became united in one organization, called the "Secret Order of Chi Phi," which has since been known as the Northern Order.

The Southern Order was founded August 21, 1858, at the University of North Carolina, by Augustus Moore Flythe, '59; Thomas Capehart, '61; James J. Cherry, '62; Fletcher Terry Seymour, '62; William Harrison Green, '62, and John Calhoun Tucker, '61. The University was then at the height of its prosperity and attracted students of wealth and social position from all parts of the South. Chapters were rapidly established by the young organization until the outbreak of the Civil War, when all except the parent chapter suspended operations. After the close of the war, some of these chapters were revived and others were established; Chi Phi of the North and Chi Phi of the South learned of each other's existence through John R. D. Shepard, a member of the Alpha Chapter at the University of North Carolina, who informed officers of the Northern Order of the existence of the Southern Order; and a correspondence was begun which resulted, after much negotiation and many mutual concessions, in the union, on July 23d, 1874, of these two Orders. The Southern Order contributed seven and the Northern Order thirteen living chapters to the consolidated Fraternity, which at that time assumed the name it still bears, viz.—The Chi Phi Fraternity.

Today the Fraternity numbers nineteen chapters upon its active rolls. Of these, one chapter owes its origin to the Princeton Order, one to the Hobart Order, four to the Northern Order, four to the Southern Order, while the remaining nine were founded under the auspices of the United Fraternity.

It is worthy of notice that two chapters were established by the Northern Order in the distinctively Southern States of South Carolina and Virginia, within seven years after the war. This circumstance must assuredly have assisted the diplomatic negotiations which resulted so felicitously.

Though differing somewhat in superficial ornamentation, the badge of each of the Fraternities from which the Chi Phi Fraternity of today was formed was a skeleton monogram in which the letter Chi was superimposed upon the letter Phi. The badge of the Fraternity at the present time resembles more closely the badge of the Princeton Order than it does those of the other two orders.

CHAPTER PUBLICATIONS.

The following publications were issued by the several Chapters, primarily for the benefit of their own alumni; secondly, for that of the Fraternity generally. They are not open publications.

The appearance of the first numbers of the OMICRON RECORD, of the MU RECORD and of the SIGMA CHRONICLE is noted by Brother Weaver, but these issues are again noted for convenience.

When no month is given, the publication was dated in one of the three last months of the college year.

The list is, in the main, accurate, but possibly not exhaustive. Any corrections which should be made in it will be gratefully received by the Fraternity officers.

CHANGES NECESSITATED BY LATE INFORMATION.

Most of the changes noted below are due to information reaching us too late to be included in the proper place. A brief explanation follows most of the changes noted giving reason for same.

Names marked "omitted" were not furnished us by the various Chapters until after the alphabetical plates were made.

Names marked "was missing" represent members who at first could not be located, but whose addresses have subsequently been furnished us.

The various other explanations we think need no further comment.

The names annexed at the end are those of brothers who have died very recently, or information as to whose death has only just reached us. They appear among the living members in each section of the Register, and the records should, therefore, be changed accordingly.

Mr. Leroy S. Boyd,
Librarian, Interstate Commerce Commission,
Washington, D.C.

Dear Sir:

I have pleasure, in accordance with your letter of July 31st, in sending you herewith a copy of the last issued Register ~~of the Register~~ of the Chi Phi Fraternity. I would advise that we are preparing a new issue of the Register which ^{we} ~~do~~ hope to issue in the coming Winter, and we shall at that time take pleasure in sending a copy of same direct to the Congressional Library, where you will be able to consult it.

Very truly yours,

A handwritten signature in dark ink, appearing to read "Leroy S. Boyd". The signature is written in a cursive style with a long horizontal flourish extending to the right.
